StatFox College Football Power Rating Lines - Week 5

** The StatFox Power Ratings are determined from a formula that is takes into account several key factors, including point margins, difficulty of schedule, team statistics and more. The ratings are typically not as reactive as those you will find elsewhere, and thus prove to be a great long term handicapping tool. Here are the StatFox Power Rating lines and edges for this week's games, with our exclusive home field advantage points built into each home team's rating and corresponding line. Note that the point edge between the Power Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

Statfox College Football Outplay Factor Rating Lines - Week 5

** The Outplay Factor Ratings made famous by StatFox are a great Team Strength Indicator as they provide a quantitative measure of how teams are outplaying (+ value) or being outplayed by (- value) their opponents. They are determined by a complicated formula that takes into account a team's points for/against as compared to how their previous opponents have fared. Here are the StatFox Team Outplay Factor Ratings and the corresponding game lines derived from them. Note that the point edge between the Outplay Factor Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.
