StatFox NFL Power Rating Lines - Week 12

** The StatFox Power Ratings are determined from a formula that is takes into account several key factors, including point margins, difficulty of schedule, team statistics and more. The ratings are typically not as reactive as those you will find elsewhere, and thus prove to be a great long term handicapping tool. Here are the StatFox Power Rating lines and edges for this week's games, with our exclusive home field advantage points built into each home team's rating and corresponding line. Note that the point edge between the Power Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

^{**} The Outplay Factor Ratings made famous by StatFox are a great Team Strength Indicator as they provide a quantitative measure of how teams are outplaying (+ value) or being outplayed by (- value) their opponents. They are determined by a complicated formula that takes into account a team's points for/against as compared to how their previous opponents have fared. Here are the StatFox Team Outplay Factor Ratings and the corresponding game lines derived from them. Note that the point edge between the Outplay Factor Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

Statfox Top-rated NFL & CFB SUPER SITUATIONS

The Super Situations are one of the most popular sections at FoxSheets.com. Situational analysis uncovers conditions and patterns where teams have consistently outperformed or underperformed their normal levels relative to the spread. These systems are tabulated for all teams and are not team-specific. The principle is that teams fall into patterns regardless of personnel—good passing teams, teams seeking revenge, cold teams on a losing streak, etc. Over time, these performance patterns tend to repeat themselves. The star rating is a proprietary calculation used to judge the strength of a situation's past performance record.

- Play Against Favorites (NEW ORLEANS) that are outscoring opponents by 10 or more points per game when coming off back-to-back games of allowing 14 or fewer points.
- The situation's record is 35-11 over the last 10 seasons (76.1%, +22.9 units).

RATING = ***

- Play Against Road teams (NEW YORK GIANTS) revenging a loss against opponent by 14 points or more, after a home game where both teams scored 24 or more points.
- The situation's record is 24-4 over the last 10 seasons (85.7%, +19.6 units).

RATING = * * *

- \bullet Play Against Favorites of 3% to 10 points (NEW ENGLAND) after a double-digit loss when facing an opponent that trailed in their previous game by 14 or more points at the half.
- The situation's record is 80-39 since 1983 (67.2%, +37.1 units).

RATING = * * *

- Play Against Home underdogs of 3½ to 10 points (NEW MEXICO, OLE MISS) after having lost 5 or 6 out of their last 7 games against opponent after having won 3 out of its last 4 games.
- The situation's record is 29-5 over the last 5 seasons (85.3%, +23.5 units).

RATING = ***

- Play Against Teams being outscored by opponents by 7 or more points/game (NORTH CAROLINA, CONNECTICUT), after back-to-back games where 70 or more points were scored.
- The situation's record is 97-37 over the last 10 seasons (72.4%, +56.3 units).

RATING = ***

- Play On Road favorites (EASTERN MICHIGAN) after allowing 14 points or fewer in back-to-back games vs. an opponent coming off a game in which it allowed 37 or more points.
- The situation's record is 49-14 over the last 10 seasons (77.8%, +33.6 units).

RATING = ***

Statfox Top-Rated NFL & CFB TEAM POWER TRENDS

The StatFox Team Power Trends uncover certain situations where a team outperforms or underperforms their normal level of play. Unlike the StatFox Super Situations, all trend records listed apply to the team in question. These trends are great indicators of how teams react to certain situations—coming off a close win, against division opponents, giving up a high number of passing yards, etc. The star rating is a proprietary calculation used to judge the strength of a trend's past performance record.

StatFox College Football Power Rating Lines - Week 13

** The StatFox Power Ratings are determined from a formula that is takes into account several key factors, including point margins, difficulty of schedule, team statistics and more. The ratings are typically not as reactive as those you will find elsewhere, and thus prove to be a great long term handicapping tool. Here are the StatFox Power Rating lines and edges for this week's games, with our exclusive home field advantage points built into each home team's rating and corresponding line. Note that the point edge between the Power Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

THE PLATINUM SHEET Statfox College Football Outplay Factor Rating Lines - Week 13

** The Outplay Factor Ratings made famous by StatFox are a great Team Strength Indicator as they provide a quantitative measure of how teams are outplaying (+ value) or being outplayed by (- value) their opponents. They are determined by a complicated formula that takes into account a team's points for/against as compared to how their previous opponents have fared. Here are the StatFox Team Outplay Factor Ratings and the corresponding game lines derived from them. Note that the point edge between the Outplay Factor Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

ABBREVIATIONS:

OL - Opening Line

OF - StatFox Outplay Factor Rating - adjusted for home field advantage. OFL - Calculated Outplay Factor Line
