# Statfox NFL Outplay Factor Rating Lines - Week 1

\*\* The Outplay Factor Ratings made famous by StatFox are a great Team Strength Indicator as they provide a quantitative measure of how teams are outplaying (+ value) or being outplayed by (- value) their opponents. They are determined by a complicated formula that takes into account a team's points for/against as compared to how their previous opponents have fared. Here are the StatFox Team Outplay Factor Ratings and the corresponding game lines derived from them. Note that the point edge between the Outplay Factor Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

## StatFox College Football Power Rating Lines - Week 2

\*\* The StatFox Power Ratings are determined from a formula that is takes into account several key factors, including point margins, difficulty of schedule, team statistics and more. The ratings are typically not as reactive as those you will find elsewhere, and thus prove to be a great long term handicapping tool. Here are the StatFox Power Rating lines and edges for this week's games, with our exclusive home field advantage points built into each home team's rating and corresponding line. Note that the point edge between the Power Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

#### THE PLATINUM SHEET

# Statfox College Football Outplay Factor Rating Lines - Week 2

\*\* The Outplay Factor Ratings made famous by StatFox are a great Team Strength Indicator as they provide a quantitative measure of how teams are outplaying (+ value) or being outplayed by (- value) their opponents. They are determined by a complicated formula that takes into account a team's points for/against as compared to how their previous opponents have fared. Here are the StatFox Team Outplay Factor Ratings and the corresponding game lines derived from them. Note that the point edge between the Outplay Factor Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

# Statfox super situations

Situational analysis uncovers conditions and patterns where teams have consistently outperformed or underperformed their normal levels. These systems are not team specific—the principle is that teams fall into patterns regardless of personnel (i.e. good passing teams, teams seeking revenge, cold teams on a losing streak, etc.).

- **Play On -** Home underdogs of 3.5 to 10 points (COLORADO ST)
- excellent passing team from last season - had a completion pct of 62% or better, in nonconference games.
- The situation's record is 26-3 since 1992 (89.7%, +22.7 units).

RATING = \* \* \* \*

- Play Against A home team (KANSAS, NEBRASKA, SMU, VANDERBILT, WYOMING) - off a home loss, in the first two weeks of the season.
- The situation's record is 44-11 over the last 10 seasons (80.0%, +31.9 units).

**RATING** = \* \* \* \*

- Play On Favorites of 10.5-21 pts (MEMPHIS, NOTRE DAME, LOUISVILLE) - that averaged 31+ pts/gm the prior season in nonconference games between teams from major FBS conferences.
- The situation's record is 36-8 over the last 10 seasons (81.8%, +27.2 units).
