POWER RATINGS

The StatFox Power Ratings are generated by a formula that weighs several key factors, including point margins, strength of schedule and team stats. Additionally, our exclusive home-field advantage points are built into each home team's rating and corresponding line. The ratings are not as reactive as those found elsewhere, and thus have proven to be a great long-term handicapping tool.
KEY:
OL Opening Line
PR StatFox Power Rating *(adjusted for home field advantage)*
PRL Calculated Power Rating Line
Edge The difference between the Power Rating Line and the actual opening line

OUTPLAY FACTOR RATINGS

StatFox's renowned Outplay Factor Ratings have proven over the years to be an excellent indicator of team strength: They provide a quantitative measure of how teams are outplaying—or being outplayed by—their opponents. They are determined by a sophisticated formula that takes into account a team's points for and points against as compared to how their previous opponents have fared.
