StatFox NFL Power Rating Lines - Week 6

** The StatFox Power Ratings are determined from a formula that is takes into account several key factors, including point margins, difficulty of schedule, team statistics and more. The ratings are typically not as reactive as those you will find elsewhere, and thus prove to be a great long term handicapping tool. Here are the StatFox Power Rating lines and edges for this week's games, with our exclusive home field advantage points built into each home team's rating and corresponding line. Note that the point edge between the Power Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

^{**} The Outplay Factor Ratings made famous by StatFox are a great Team Strength Indicator as they provide a quantitative measure of how teams are outplaying (+ value) or being outplayed by (- value) their opponents. They are determined by a complicated formula that takes into account a team's points for/against as compared to how their previous opponents have fared. Here are the StatFox Team Outplay Factor Ratings and the corresponding game lines derived from them. Note that the point edge between the Outplay Factor Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

Statfox Top-Rated NFL Super Situations

The Super Situations are one of the most popular sections at FoxSheets.com. Situational analysis uncovers conditions and patterns where teams have consistently outperformed or underperformed their normal levels relative to the spread. These systems are tabulated for all teams and are not team-specific. The principle is that teams fall into patterns regardless of personnel—good passing teams, teams seeking revenge, cold teams on a losing streak, etc. Over time, these performance patterns tend to repeat themselves. The star rating is a proprietary calculation used to judge the strength of a situation's past performance record.

- Play Against Favorites (PITTSBURGH) - excellent offensive team - scoring 27 or more points/game, after allowing 14 points or less in 2 straight games.
- The situation's record is 32-7 over the last 10 seasons (82.1%, +24.3 units).

RATING = ***

- Play On Road teams where the line is +3 to -3 (KANSAS CITY, PHILADELPHIA) - off a road loss, after the first month of the season
- The situation's record is 71-32 over the last 10 seasons (68.9%, +35.8 units).

RATING = ***

- Play On Road teams (NEW YORK JETS, CAROLINA) - after being beaten by the spread by 35 or more points total in their last three games, in October games.
- The situation's record is 28-7 over the last 10 seasons (80%, +20.3 units).

Statfox Top-Rated NFL TEAM POWER TRENDS

The StatFox Team Power Trends uncover certain situations where a team outperforms or underperforms their normal level of play. Unlike the StatFox Super Situations, all trend records listed apply to the team in question. These trends are great indicators of how teams react to certain situations—coming off a close win, against division opponents, giving up a high number of passing yards, etc. The star rating is a proprietary calculation used to judge the strength of a trend's past performance record.

StatFox College Football Power Rating Lines - Week 7

** The StatFox Power Ratings are determined from a formula that is takes into account several key factors, including point margins, difficulty of schedule, team statistics and more. The ratings are typically not as reactive as those you will find elsewhere, and thus prove to be a great long term handicapping tool. Here are the StatFox Power Rating lines and edges for this week's games, with our exclusive home field advantage points built into each home team's rating and corresponding line. Note that the point edge between the Power Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

Statfox College Football Outplay Factor Rating Lines - Week 7

** The Outplay Factor Ratings made famous by StatFox are a great Team Strength Indicator as they provide a quantitative measure of how teams are outplaying (+ value) or being outplayed by (- value) their opponents. They are determined by a complicated formula that takes into account a team's points for/against as compared to how their previous opponents have fared. Here are the StatFox Team Outplay Factor Ratings and the corresponding game lines derived from them. Note that the point edge between the Outplay Factor Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

ABBREVIATIONS:
