## StatFox NFL Power Rating Lines - Week 4

\*\* The StatFox Power Ratings are determined from a formula that is takes into account several key factors, including point margins, difficulty of schedule, team statistics and more. The ratings are typically not as reactive as those you will find elsewhere, and thus prove to be a great long term handicapping tool. Here are the StatFox Power Rating lines and edges for this week's games, with our exclusive home field advantage points built into each home team's rating and corresponding line. Note that the point edge between the Power Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

## Statfox NFL Outplay Factor Rating Lines - Week 4

\*\* The Outplay Factor Ratings made famous by StatFox are a great Team Strength Indicator as they provide a quantitative measure of how teams are outplaying (+ value) or being outplayed by (- value) their opponents. They are determined by a complicated formula that takes into account a team's points for/against as compared to how their previous opponents have fared. Here are the StatFox Team Outplay Factor Ratings and the corresponding game lines derived from them. Note that the point edge between the Outplay Factor Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

# Statfox TOP-RATED NFL & CFB SUPER SITUATIONS

The Super Situations are one of the most popular sections at FoxSheets.com. Situational analysis uncovers conditions and patterns where teams have consistently outperformed or underperformed their normal levels relative to the spread. These systems are tabulated for all teams and are not team-specific. The principle is that teams fall into patterns regardless of personnel—good passing teams, teams seeking revenge, cold teams on a losing streak. etc. Over time. these performance patterns tend to repeat themselves. The star rating is a proprietary calculation used to judge the strength of a situation's past performance record.

• Play On - Road favorites (NEW ORLEANS, KANSAS CITY) averaging 265 passing yards per game vs. defense allowing 230 to 265 pass yards per game, after allowing 7 or more passing yards per attempt in back-to-back games.

• The situation's record is 22-4 since 1983 (84.6%, +17.6 units).

RATING = \* \* \*

• Play Against - Home teams where line is +3 to -3 (MIAMI OH) after outrushing opponent by 200 or more yards last game vs. opponent after gaining 5.5 or more rushing yards/attempt last game.

• The situation's record is 27-3 over the last 10 seasons (90.0%, +23.7 units).

RATING = \* \* \* \* \*

• Play On - Home favorites of between 3½ and 10 points (ATLANTA) after a game where they committed no turnovers vs. an opponent after a game with a turnover margin of -3 or worse.

• The situation's record is 24-5 over the last 10 seasons (82.8%, +18.5 units).

RATING = \* \* \*

• Play Against - Home underdogs (RUTGERS) that are allowing an average of at least 35 points per game and coming off back-to-back games that went Over the total.

• The situation's record is 58-19 over the last 5 seasons (75.3%, +37.1 units).

RATING = \* \* \* \*

• **Play On** - Home teams where the line is +3 to -3 (ARIZONA) slow starting team - outscored by 5 or more points per game in the first half, after scoring 14 points or less last game.

#### StatFox College Football Power Rating Lines - Week 5

\*\* The StatFox Power Ratings are determined from a formula that is takes into account several key factors, including point margins, difficulty of schedule, team statistics and more. The ratings are typically not as reactive as those you will find elsewhere, and thus prove to be a great long term handicapping tool. Here are the StatFox Power Rating lines and edges for this week's games, with our exclusive home field advantage points built into each home team's rating and corresponding line. Note that the point edge between the Power Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

# THE PLATINUM SHEET Statfox College Football Outplay Factor Rating Lines - Week 5

\*\* The Outplay Factor Ratings made famous by StatFox are a great Team Strength Indicator as they provide a quantitative measure of how teams are outplaying (+ value) or being outplayed by (- value) their opponents. They are determined by a complicated formula that takes into account a team's points for/against as compared to how their previous opponents have fared. Here are the StatFox Team Outplay Factor Ratings and the corresponding game lines derived from them. Note that the point edge between the Outplay Factor Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.
