StatFox NFL Power Rating Lines - Week 1

*** The StatFox Power Ratings are determined from a formula that takes into account several key factors, including point margins, difficulty of schedule, team statistics and more. The ratings are typically not as reactive as those you will find elsewhere, and thus prove to be a great long term handicapping tool. Here are the StatFox Power Rating lines and edges for this week's games, with our exclusive home field advantage points built into each home team's rating and corresponding line. Note that the point edge between the Power Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

Statfox NFL Outplay Factor Rating Lines - Week 1

** The Outplay Factor Ratings made famous by StatFox are a great Team Strength Indicator as they provide a quantitative measure of how teams are outplaying (+ value) or being outplayed by (- value) their opponents. They are determined by a complicated formula that takes into account a team's points for/against as compared to how their previous opponents have fared. Here are the StatFox Team Outplay Factor Ratings and the corresponding game lines derived from them. Note that the point edge between the Outplay Factor Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

statfox TOP-RATED NFL SUPER SITUATIONS

Situational analysis uncovers conditions and patterns where teams have consistently outperformed or underperformed their normal levels. These systems are not team specific—the principle is that teams fall into patterns regardless of personnel (i.e. good passing teams, teams seeking revenge, cold teams on a losing streak, etc.).

• **Play Against** - Underdogs of 3½ to 10 points (NEW ENGLAND) - team that had a winning record last season.

• **The situation's record** is 41-16 over the last 10 seasons (71.9%, +23.4 units).

RATING = **

• **Play On** - Underdogs or pick (NY GIANTS, SAN DIEGO, SAN FRANCISCO, TAMPA BAY) - bad team from last season who won only 25% to 40% of their games, in conference games.

• **The situation's record** is 61-30 over the last 10 seasons (67.0%, +28 units).

RATING = **

• **Play Over** - Any team where the total is between 35½ and 42 points (CAROLINA, CINCINNATI, NY JETS) - good offensive team from last season - scored 24 or more points/game.

• **The situation's record** is 37-11 over the last 10 seasons (77.1%, +24.9 units).

RATING = ***

statfox TOP-RATED NFL COACHING TRENDS

The StatFox Coaching Trends uncover certain situations where a team outperforms or underperforms their normal level of play under their current head coach. Unlike the StatFox Super Situations, all trend records listed apply to the team in question. These trends are great indicators of how teams react to certain situations—coming off a close win, against division opponents, giving up a high number of passing yards, etc. The star rating is a proprietary calculation used to judge the strength of a trend's past performance record.

• **SEATTLE** is 10-0 ATS at home in September games under head coach Pete Carroll.

The average score was SEATTLE 27.4, OPPONENT 11.1.

StatFox College Football Power Rating Lines - Week 2

** The StatFox Power Ratings are determined from a formula that takes into account several key factors, including point margins, difficulty of schedule, team statistics and more. The ratings are typically not as reactive as those you will find elsewhere, and thus prove to be a great long term handicapping tool. Here are the StatFox Power Rating lines and edges for this week's games, with our exclusive home field advantage points built into each home team's rating and corresponding line. Note that the point edge between the Power Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

Statfox College Football Outplay Factor Rating Lines - Week 2

** The Outplay Factor Ratings made famous by StatFox are a great Team Strength Indicator as they provide a quantitative measure of how teams are outplaying (+ value) or being outplayed by (- value) their opponents. They are determined by a complicated formula that takes into account a team's points for/against as compared to how their previous opponents have fared. Here are the StatFox Team Outplay Factor Ratings and the corresponding game lines derived from them. Note that the point edge between the Outplay Factor Rating Line and the actual opening line is denoted for the team with the edge. Use the W/L column to keep track of the winners and losers.

ABBREVIATIONS:
 OL - Opening Line
 OF - StatFox Outplay Factor Rating - adjusted for home field advantage.
 OFL - Calculated Outplay Factor Line

statfox SUPER SITUATIONS

Situational analysis uncovers conditions and patterns where teams have consistently outperformed or underperformed their normal levels. These systems are not team specific—the principle is that teams fall into patterns regardless of personnel (i.e. good passing teams, teams seeking revenge, cold teams on a losing streak, etc.).

- **Play On** - Home underdogs of 3½ to 10 points (EAST CAROLINA) - excellent passing team from last season - had a completion pct of 62% or better, in non-conference games.

• **The situation's record** is 27-4 since 1992 (87.1%, +22.6 units).

RATING = * * * *

- **Play Against** - Home favorites (CLEMSON, OKLAHOMA STATE, INDIANA, OHIO STATE) - after allowing 100 or less rush yards last game vs. opponent that outrushed its opponent by 200 or more yards last game.

• **The situation's record** is 31-6 last 5 seasons (83.8%, +24.4 units).

RATING = * * * *

- **Play Against** - Any team (PITTSBURGH) - in first month of season, after ending last season with 2 or more straight losses vs. opponent that lost its last 3 games, including a bowl game, last season.

• **The situation's record** is 26-5 over the last 10 seasons (83.9%, +20.5 units).

RATING = * * *
